

Hannibal-LaGrange University's
COVID-19
Student Reference Guide

- Self-isolates***

- Close contacts identified and contacted

-report to SL+ upon notification for contact tracing

- Self-quarantines** for 14 days from close contact

- Self-isolation*** if symptoms develop and/or tests positive for COVID-19

- Low risk of infection

- Person C is not subject to quarantine unless Person B develops symptoms or tests positive for COVID-19

*Close contact: is someone who was within 6 feet of an infected person for at least 15 minutes starting 48 hours before illness onset.

**Self-quarantine: when someone separates and restricts their selves around others to see if they become sick.

***Self-isolation: when someone completely separates their selves around others after learning they are sick.

+ SL: Student Life

RETURN TO CLASS/NORMAL ACTIVITY (CDC GUIDANCE):

Person A: able to return 10 days after symptom onset and be fever free for 24 hours without the help of fever reducing medications and COVID-19 symptoms have improved.

Person B: able to return 14 days after self-quarantine as long as no symptoms become present.

Person C: is not required to self-quarantine unless symptoms occur or tests positive for COVID-19.

Residential Students: self-isolation space has been made ready for students who cannot travel home.

HLGU requires all employees, students, and guests to wear a mask in public areas and classrooms until September 8, 2020 or further notice from Student Life!
