

Objectives for the HLGU Biology Major

Statement of Mission and Purpose:

The mission of Hannibal-LaGrange University is to provide an excellent education in both liberal arts and professional disciplines in a distinctively Christian environment that integrates Christian faith and learning in preparing graduates for personal and career effectiveness.

The mission of the Science Department is to provide an excellent education in the field of biology in a distinctively Christian environment that integrates Christian faith and learning in preparing graduates for personal and career effectiveness.

Objectives for the Biology Major:

1. The Biology major will demonstrate proficiency in the following subject areas: cell biology and physiology, genetics, basic ecology, microbiology, and general plant and animal form and function.
2. The Biology major will demonstrate the ability to conduct supervised original research with a working knowledge of the biological literature.
3. The Biology major will be able to communicate scientific information to a diverse audience.

**Our purpose is to help you discover
God's purpose for your life.**
