

## Athlete Graduation Rates

From the Federal Student Aid Handbook (chapter 7, page 2-231):

Schools that participate in an FSA program and offer athletically related student aid must provide information on completion or graduation rates, transfer-out rates, if applicable, and other statistics for students who receive athletically-related student aid to potential student athletes, and to their parents, high school coach, and guidance counselors.

The definition of athletically-related student aid used here is the same definition that is used for the Equity in Athletics Disclosure Act (EADA) disclosure requirements (see the discussion under Equity in Athletics Disclosure later in this chapter). The definitions of certificate or degree-seeking student, first-time undergraduate student, undergraduate students, and normal time are the same as those used for the calculation of completion or graduation and transfer-out rates for a school's general student body cohort (discussed above).

Below is HLGU's data regarding students receiving athletic aid and graduation rates.

### Athletic Graduation Rates (6 year)

Entering Year	No Earned Degree	Earned Degree	Total	Grad Rate
2009-2010	52	43	95	45.3%
2010-2011	46	35	81	43.2%
2011-2012	43	24	67	35.8%
2012-2013	67	44	111	39.6%
<b>Four Year Avg</b>	<b>208</b>	<b>146</b>	<b>354</b>	<b>41.2%</b>

More information about IPEDS reported institutional retention and graduation rates can be found at <https://nces.ed.gov/collegenavigator/?id=177542>.
